

Thomas Sloane

Toronto, ON | (437) 457-3676 | thomas.i.sloane@gmail.com

Summary

Software Engineer with experience developing full stack applications and low-level device drivers for optical ground stations using Django, React, C++ and C. Skilled in designing scalable, testable code and maintaining existing software on Windows and Linux. Proven ability to build internal tools and user interfaces that streamline operations.

Experience

MBRYONICS

Systems Software Engineer

Apr 2024 - Apr 2026

Galway, Ireland

- Developed a full stack web application using Django and React with a relational database to let users control optical ground stations
- Used C++ and C to develop device drivers using INDI Astronomy
- Used HTML, CSS, and JavaScript to develop a universal, scalable web interface for configuring hardware products
- Worked with Windows and Linux (Ubuntu).
- Used Python and SQL to develop an internal tool with a relational database to track hours for project funding
- Used React and Express to create a custom, testable sprint retrospective tool
- Mentored two software engineering interns

DELIMIT STUDIOS

Co-Founder and Lead Programmer

Jan 2022 - Jun 2023

Galway Ireland

- Creating video game: "It's All in Your Head"
- Write C# code for a video game made in the Unity engine
- Working with a team of 2 -5 programmers, 2 artists, and 1 composer/audio engineer

JOULICA

Software Engineering Intern

Jan 2022 - Sep 2022

Galway, Ireland

- Used Kubernetes to maintain Ingress file versions
- Used Angular to develop a web application which allowed users to utilise Joulica's in house APIs
- Technologies involved: Kubernetes, Jenkins, AWS, Java, TypeScript, CSS, HTML,
- Analyzed and maintained existing web applications, ensuring scalable and testable code quality

ERICSSON

Software Engineering Intern

Jun 2021 - Aug 2021

Galway, Ireland

- Manually tested UIs developed by team
- Maintained the user base for internal systems utilised by multiple teams

TESCO

Sales Assistant

Apr 2020 - May 2021

Galway, Ireland

- Completed and executed online orders received from customers
- Learned to work well as part of a large team including ~15 people

SLOANE FAMILY PRACTICE

Administration Assistant

Jun 2019 - Jul 2019

Galway, Ireland

- Managed medical programs in a work environment to catalogue paperwork and complete documents containing confidential information, reduced the surgery's physical paperwork by 70%

Projects

ULTI TRACKER

Jan 2024 - Present

- Developed a mobile application with React Native for sports clubs worldwide to track workouts and manage teams
- Implemented offline data storage and synchronization using Realm and MongoDB, optimizing performance and scalability

University Final Year Project

Jan 2023 - Apr 2023

- Implemented a neural network in Python using TensorFlow to train and generate musical note sequences
- Constructed the frontend with HTML, CSS, and JavaScript to provide an intuitive user interface for music generation
- Used HTML, JavaScript and CSS to create the frontend of the website

TYPEMAKER

Jan 2023 - Jul 2023

- Created a full stack web application similar to other available typing websites online such as "TypeRacer", "TenFastFingers", "MonkeyType", etc
- Used MongoDB, JavaScript (node.js, express.js, ejs), HTML, CSS

MANHUNT

Aug 2025 - Present

- Creating a mobile application using Colyseus (Nodejs), Nakama (Go) and React Native. Similar to games such as hide and seek.
- Implementing devops to build a robust and scalable application.

TYPING 99

Mar 2025 - Present

- Creating a full stack web application similar to the game "Tetris 99". A large multiplayer battle royale game based off of "speed" typing
- Using React.js, Node.js and different database solutions
- Implementing devops and CI/CD solutions to build a robust and scalable solution

Skills

- **Soft Skills:** Customer care & interaction, great working on a team, time management, risk management, planning, delegation, sales
- **Leadership & Management:** Project management, team leader, activity coordination, supervisor meetings
- **Technical Proficiencies:** Python, HTML, CSS, JavaScript (node.js, Vue.js, Angular.js), C, C#, GitHub, Container orchestration: Docker, Confluence, MS Teams, Slack, Programming Languages, SQL, Relational Databases

Education

University of Galway, Ireland
Bachelor of Computer Science

Nov 2023
Galway
